**3.5 Major Exportable Item:** Nil

**3.6 Growth Trend:**

The growth trend from 1984-85 to 2013-14 is asymmetrical. During the year 2014 -15 to 2018-19 total 1654 units have been registered which shows a positive growth trend during these 4 years.

**3.7 Vendorisation / Ancillarisation of the Industry :**

As there is no large and medium scale industry in the district, there is little scope for ancillary development. However, some ancillary and downstream industries can be promoted basing upon the requirements of the mother plants located in the neighbouring districts. In this liberalized era, the place or locality is not a rigid criteria for development of ancillary industries. This can be done taking into view the requirement and demand of the mother plants located inside the state.
